The thresholds are expressed in national currency calculated from the \in values at the exchange rate on the date of accession, i.e. 1.1.2007. The seller is not liable to tax if the annual turnover of the business does not exceed \in 10,000 and he has not opted for taxation. When this threshold for VAT liability is exceeded, the enterprise receives a relief, which gradually decreases with the increase of turnover. The full amount of tax is levied when the annual turnover reaches €30,000.
